Objective

Experienced Web Developer seeking opportunity to bring knowledge of programming, design, and media to a position with a fast-paced, innovative company.

Education

Purdue University																							**August 2010**
Bachelor of Science | Computer Graphics Technology
Minor | Computer and Information Technology

Experience

Full-Time

Web Developer																							**July 2012-Present**
United Benefit Advisors																			Indianapolis, IN & Chicago, IL
- Developed custom skins for corporate websites using responsive strategies with Bootstrap and DotNetNuke in order to improve the user experience.
- Designed, developed, and organized conference mobile app. Provided session schedule, speaker information, presentations, and feedback forms.
- With a team, assisted in the development of UBA's data entry web app. Adopted Angular UI controls to enhance the performance of the application.
- Managed the company's Hubspot account. Discovered how to improve UBA's marketing experience by researching CTAs, workflows, forms, email templates, landing pages, and blog management. Delegated and taught duties to other team members from the Marketing department as the account expanded.
- Assist internal staff and UBA Partner Firms with technical support of proprietary technology tools.

Web Designer/Developer Intern																	**January 2010-August 2011**
Wesley Foundation at Purdue																				West Lafayette, IN
- Reconstructed website to increase usability and efficiency.
- Presented to the client different hosting opportunities to save money and resources.
- Designed fliers for service projects to promote the organization's ministries on campus.

Graphic Designer																					**May-August 2009**
Wheel Fun Rentals																						Indianapolis, IN
- Designed menus, flyers, and boat decals for company's newest branch at Eagle Creek Marina.
- Communicated with supervisor on a regular basis about current and future projects.

Freelance

Web Production Contractor																			**May 2011-July 2012**
Find8																									Lafayette, IN
- Constructed HTML emails to help clients market their brand via email communications.
- Created site maps and wireframes to help clarify and organize the clients' content for production.
- Updated clients' content in their websites using DotNetNuke**.**
